Pilot Option Rate Programs

- CP = Contract Pricing
- CV = Comprehensive Tree Value
- QE = Quarantine Endorsement
- PY = Personal T Yield
- NS = Stage Removal
- PO = Price Endorsement Option

The following pages contain a list of all federally subsidized insurable crops, what states they are insurable in, under what plan(s) of insurance, and the number of counties where they are insurable. Please note this information is current as of December 3, 2013. Changes are constantly occurring in the crop insurance program and you should contact your crop insurance agent for the most up-to-date information.

The numbers in the matrix refer to specific insurance plans by the plan number as identified by the Risk Management Agency (RMA). A number containing a dash indicates that the crop is not insurable in every county in the state. The number following the dash represents the number of counties in that state the crop is insurable under the plan of insurance indicated by the number before the dash. For example, the code 01-16 means that specific crop is insurable under the Yield Protection (YP) plan of insurance in sixteen counties in the state. If the number does not contain a dash, it is insurable in every county in the state. A number including (P) indicates a pilot program.
